Subject: RE: Facilities discharging to the Allegheny River above Seneca Nation

Thanks for getting this to me. Is it your recommendation that we just reach out to all of these dischargers, or are there some you would eliminate based on certain criteria?

Info from the other Regional office.

Once you have a full list of folks that you are sending this too, can you share it with me and I will include that along with the fact sheet to our public affairs office.

Thanks!

Michelle – Assuming this was the reason for your call yesterday, attached is a list of all NPDES permits in Watershed 16C, which is the Allegheny River watershed and its tributaries upstream of the SNI. I filtered the list to just the facility types that Mr. Randis provided. Please call if this is not what you are looking for.

Subject: Facilities discharging to the Allegheny River above Seneca Nation

Michelle,

As we discussed, here is a list of the IW, IWSW, and Sewage facilities that discharge to the Allegheny River upstream of the Seneca Nation. All SRSTFs and SFTFs have not been included for the reasons we discussed. Please let me know if you need further information for the enhanced communications process. Tom
